Annual Bull Sale

WEDNESDAY, APRIL 14, 2021

12 NOON MDT | LA JUNTA LIVESTOCK COMMISSION CO. | LA JUNTA, CO

SELLING: 29 2-YR OLD SALERS & OPTIMIZER BULLS

24 2-YR OLD HEREFORD BULLS

8 YEARLING SALERS & OPTIMIZER BULLS

Dear Fellow Cattlemen:

Hope this finds you well. Welcome to our 2021 Bull Sale. Thank you to all our loyal customers! We really appreciate your business.

We have an outstanding, very thick set of 2yr-old Salers and Optimizer bulls this year. They have performed very well on short grass and a very limited grow ration. They are sired by top Salers, Optimizer and Angus bulls. On the cow side, we keep a close eye on mothering ability and good udders. All of these cattle have good dispositions.

The yearling Salers and Optimizer bulls are coming on strong and have good numbers. Most of the pastures were pretty short of grass last year and thus the weaning weights were quite a bit lower. These yearlings will catch your eye and most will work on heifers.

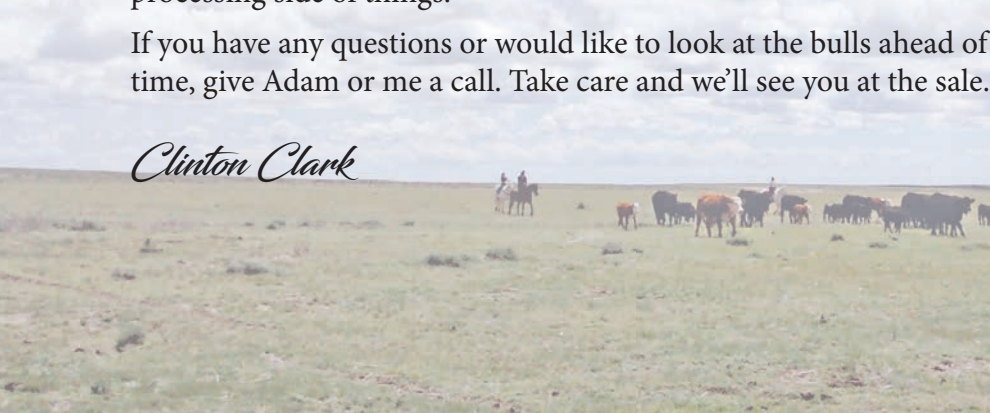

The 2yr-old Hereford bulls have grown out very well on a limited grow ration. They, too, are thick-made and have calm dispositions. These bulls have hooded eyes with much pigment. We also select hard for bulls that have daughters with good udders, a good amount of milk and good mothering ability.

Last year, my family and my mom fed out a nice group of Salers/Hereford/Angus cross steers. They performed very well and the conversion was great.

In the bigger picture, it is good to see smaller packing plants opening and more competition in the meat processing side of things.

If you have any questions or would like to look at the bulls ahead of time, give Adam or me a call. Take care and we'll see you at the sale.

Clinton Clark

Sale Location

La Junta Livestock Commission Co.
 24026 CR 30.25, La Junta, CO 81050
 Located on the east side of La Junta, on the south side of U.S.
 Highway 50.

Online Broadcast

Online bidding will be available through DVAuction. To watch the live broadcast and bid online, visit www.dvauction.com to register and apply for bidding. We recommend getting approved to bid at least 24 hours prior to the sale. If you have any questions or need assistance, please call DV Auction at 402-316-5460.

For those who would like to watch the sale **ONLY**, it can also be viewed at www.lmauctions.com to see a live feed and audio of the sale. Although you cannot bid from this platform, feel free to give us a call to place a bid during the sale:

Adam Nuss 719-464-1942
 Sarah Nuss 970-310-8842
 Keo Honey 719-469-7784

Please try to call in advance and give us a heads up so you don't miss your bull.

Absentee Bids

Mailed or telephoned bids will be handled in all confidence if you are unable to attend the sale. Please contact La Junta Livestock or Clinton Clark in advance of the auction so we may assist you sale day.

Inspection of Cattle

Bulls are available for your inspection at any time on the ranch, so please call if you need directions. The bulls will be in the La Junta Livestock yards on Tuesday, April 13, 2021.

Registration

A certificate of registry will be transferred to the buyer on each registered animal sold after settlement has been made.

Health

At branding: 7-way with pink eye, Vista 5 and Mult Min 90.
At weaning: 7-way booster with pink eye, Vista 5 Autogenous Bacterin, and Mult Min 90.
Winter: Pour-on Promectin B (Ivermectin)
Spring: As is done in some bull tests, every bull was given a magnet to help prevent hardware disease.

All bulls have passed a fertility test and breeding soundness exam. All 2-yr old bulls have been Trich tested.

Announcements

A supplement sheet will be available sale day with any up-to-date information, including scrotal measurements and current bull weights. This sheet and any announcements made from the auction block will take precedence over statements in this catalog.

Guarantee

All bulls are guaranteed to be breeders. Bulls are guaranteed against breeding injury for the first breeding season, which is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided or if the buyer prefers, credit will be given toward a bull at the following year's sale, less salvage value of the injured bull. Notification must be given to Clinton Clark prior to selling the injured bull.

IGS EPDs EXPLAINED

Last year, the American Salers Association made some significant changes to their EPDs which represented a significant improvement in genetic prediction for Salers cattle. Those changes are here and represented in this year's catalog. Salers EPDs are now being calculated in a multi-breed genetic evaluation model provided by a company called International Genetic Solutions (IGS).

So, what's different? One major difference you will note is the change in breed average for many of the EPDs. Some of these changes are very large and some not so significant. A comparison of the old breed average EPDs to the new breed average EPDs is provided in the table below. These changes in breed average were necessary to put Salers on the same base with the other breeds that are part of the IGS multi-breed genetic evaluation model. What that means is that Salers EPDs are now directly comparable to EPDs from other major breeds including Simmental, Red Angus and Limousin.

Other changes are more "behind the scenes" in the EPDs, but they are changes that should make EPDs significantly more accurate and useful in helping to describe how a given animal is likely to produce in your herd. These new EPDs for the first time ever will incorporate genomic (DNA sampled) data into the EPDs when available. Genomic testing allows us to peek into the DNA of an animal to see if certain genes are present and then incorporate that information into the EPDs.

This new realm of genetic prediction for Salers cattle will enable us to provide more data and more accurate data to you in making your genetic selection decisions. We look forward to partnering with you to help you make the best possible genetic selections to accomplish your goals with your cowherd.

Comparison of Salers Non-Parent Breed Average EPDs 2020 vs. 2021 (new IGS calculated EPDs)

	2020 EPDs	2021 IGS EPDs
Birth Weight	+1.6	0.0
Weaning Weight	+43	+67
Yearling Weight	+80	+81
Milk	+20	+16
Maternal Wean Weight	+41	+45
Backfat	-0.07	-0.08
Ribeye Area	+0.08	+0.69
Marbling	-0.4	+0.4
Carcass Weight	+23	+1.5
Docility	+9.8	+10.0
Stayability	+23.9	+14.0
Calving Ease Direct	+0.3	+12.2
Calving Ease Maternal	+0.3	+6.2

EPD KEY

BW = birth weight
WW = weaning weight
YW = yearling weight
SC = scrotal circumference
MILK = milk
MAT = milk + growth

FAT = fat
REA = rib eye area
MARB = marbling score
%RY = percent retail yield (Salers)
CW = carcass weight (Salers)
DOC = docility
CED = calving ease direct

CEM/MCE = calving ease maternal
MCW = mature cow weight (Hereford)
BMI = baldy maternal index (Hereford)
BII = Brahman influence index (Hereford)
CHB = Certified Hereford Beef index (Hereford)

Hereford EPD AVERAGES

CED	BW	WW	YW	SC	Milk	MAT	CEM	MCW	CWT	FAT	REA	Marb	BMI	BII	CHB
+2.6	+2.8	+53	+85	+1.0	+25	+51	+2.0	+90	+66	+0.013	+0.38	+0.10	+351	+420	+111

Salers / Optimizer EPD AVERAGES

CED	BW	WW	YW	Milk	MWW	CEM	REA	Marb	BF	CWT	DOC	STAY
+12.6	+0.2	+53	+75	+16	+42	+6.2	+0.61	0	-0.14	-3.6	+8	+15

* A note about Angus and Optimizer Sires:

When sires of other breeds enter the Salers pedigrees, their EPDs all start out at zero. Therefore, sons of these Angus and Optimizer bulls will have lower EPDs.

Amen was raised by Panther Country Salers. He is a very thick-made, moderate-framed bull with extra length. His sire is AVS Out West, who was a futurity champion. His dam, Ms Champ 20L is a BLK Champ daughter whose last two sons both sold at the Midland Bull Test with a combined ADG ratio of 119 and RFI ratio of 104. His calves are thick-made and easy-doing.

We bought Sierra in 2017 and brought him to Colorado from Bruce Lowenberg's Missouri cow herd. He has good depth of body with ample bone and is very gentle. He sires calves with the classic Salers traits we love: moderate birth weight, lively calves that grow like good-doing cattle should. His Weaning and Yearling wt. EPDs are +56 and +76, respectively.

Hoover Dam is one of the most popular and proven sires in the Angus breed. We've been very pleased with the disposition, thickness, and uniformity of his calves. His son, 958Z, is out of a Mytty In Focus daughter and is producing calves similar to his sire—light birth weight and fast growth. His daughters have good dispositions, milk very well and are very moderate in their frame size.
