Annual Bull Sale

WEDNESDAY, APRIL 10, 2024

12 NOON MDT | LA JUNTA LIVESTOCK COMMISSION CO. | LA JUNTA, CO

SELLING: 30 2-YR OLD SALERS & OPTIMIZER BULLS
22 2-YR OLD HEREFORD BULLS
10 YEARLING SALERS & OPTIMIZER BULLS
10 YEARLING SALERS & OPTIMIZER HEIFERS

Dear Fellow Cattlemen:

Welcome to our 2024 Annual Bull Sale. We have a super nice set of bulls ready for your inspection. All these bulls; 2 year-olds and yearlings, came off grass in November and December and have had no grain in the corral. They have received sorghum hay, alfalfa pellets and sunflower pellets. These bulls have done well and are not carrying excess condition.

The Salers and Optimizer bulls are out of top bloodlines in the Salers and Angus breeds. Out West, Topeka, Connor, and Anders are some of the more recent Salers bulls we have used. Hoover Dam, Hickok, Mytty In Focus, Altitude and Justified are some of the recent Angus bulls. These are all performance cattle with good calving ease, growth, maternal traits and carcass traits. We watch disposition very closely and breed them so that they can go to high altitude.

The Hereford bulls have a lot of L1 influence. We have a lot of 3027 and 9126J in our bloodlines. Many of our cows go back to 26 Bar Ranch (John Wayne) and some Carpenter Williams. We have used Sensation for lighter birth weight and more milk. You'll like these bulls.

Cattle today need to be efficient and easy to work. Our cattle have done well on grass as well as the feedlot. We have a lot of data on cattle that have gone through the packing plant with very good carcasses and the cost of gain has been good in the feedlots.

Stop by if you can to look the bulls over. We very much appreciate your interest and business. If you have any questions about the bulls, sale or delivery, please call.

Thank you,

Clinton Clark

Sale Contacts

La Junta Livestock Commission Co.	719-384-7781

Home	719-446-5428
Cell	719-464-1942

Sale Location

La Junta Livestock Commission Co.
24026 CR 30.25, La Junta, CO 81050
Located on the east side of La Junta, on the south side of U.S.
Highway 50.

Online Broadcast

Online bidding will be available through LMA Auctions. To watch the live broadcast and bid online, visit www.LMAAuctions.com to register and apply for bidding. We recommend getting approved to bid at least 48 hours prior to the sale. If you have any questions or need assistance, please call LMA Auctions at 800-821-2048.

For those who would like to watch the sale **ONLY**, it can also be viewed at www.lmaauctions.com to see a live feed and audio of the sale. Although you cannot bid from this platform, feel free to give us a call to place a bid during the sale:

Adam Nuss	719-464-1942
Sarah Nuss	970-310-8842
Keo Honey	719-469-7784

Please try to call in advance and give us a heads up so you don't miss your bull.

Absentee Bids

Mailed or telephoned bids will be handled in all confidence if you are unable to attend the sale. Please contact La Junta Livestock or Clinton Clark in advance of the auction so we may assist you sale day.

Inspection of Cattle

Bulls are available for your inspection at any time on the ranch, so please call if you need directions. The bulls will be in the La Junta Livestock yards on Tuesday, April 9, 2024.

Registration

A certificate of registry will be transferred to the buyer on each registered animal sold after settlement has been made.

Health

At branding: 7-way with pink eye, Pyramid 5 and Mult Min 90.
At weaning: 7-way booster with pink eye, Pyramid 5, Autogenous Bacterin, and Mult Min 90.
Winter: Pour-on Ivermectin
Spring: As is done in some bull tests, every bull was given a magnet to help prevent hardware disease.

All bulls have passed a fertility test and breeding soundness exam. All 2-yr old bulls have been Trich tested.

Announcements

A supplement sheet will be available sale day with any up-to-date information, including scrotal measurements and current bull weights. This sheet and any announcements made from the auction block will take precedence over statements in this catalog.

Guarantee

All bulls are guaranteed to be breeders. Bulls are guaranteed against breeding injury for the first breeding season, which is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided or if the buyer prefers, credit will be given toward a bull at the following year's sale, less salvage value of the injured bull. Notification must be given to Clinton Clark prior to selling the injured bull.

Delivery

Free delivery to customers in the central US who purchase a bull for \$5,000 and up. All other customers we will split delivery costs with you 50/50.

2U66, the sire of this bull, is out of the popular Mytty In Focus bull. He has double digit calving ease with outstanding performance, type and fleshing ability. He is a high efficiency sire who ranks in the top 10% for reduced feed intake. 713D is a great heifer bull and produces easy-going, thick-made calves.

Sensation, the sire of 350G was the high calving ease bull in the entire Hereford breed and is one of the highest bulls on record for maternal milk. We have used this bull for several years and now have 3-year old sons and daughters by him. They are great cattle. Sensation's calves are small at birth and very aggressive, grow well and have good carcass numbers. His daughters are not big but have excellent udders, milk well, are fertile, and take good care of their babies.

***A note about Angus and Optimizer Sires:**
When sires of other breeds enter the Salers pedigrees, their EPDs all start out at zero. Therefore, sons of these Angus and Optimizer bulls can have lower EPDs.

For years we have selected Angus bulls that can handle high altitude.

American Salers Association GOLD DAMS EXPLAINED

The ASA Gold Dam and Sire program recognizes Salers breeders’ top producing cows within a herd based on number of calves weaned per cow exposed and weaning weight of calves. Cows and sires can be recognized from any environment because the list is based on within herd performance.

- To become a Gold Dam, cows must meet a tough selection criteria.
- Gold Dams must have had a calf before they are 2.3 years of age and calve within a 395-day calving interval which allows the producers to calve heifers earlier than the main cow herd.
 - Dam’s must have a minimum of three natural (non-ET) calves with an average weaning ratio greater than 105.
 - These are the top quality, most efficient cows in a herd. Only the top 2% of the registered cows make the Golden Dam list.

Gold Sires – Salers bulls can earn the title of Gold Sires by Siring five or more Gold Dams. Gold Dams and Sires can be identified in Salers pedigrees by an (*) behind each name in the pedigree.

Clark Anvil Ranch had 14 Gold Dam’s in 2021, 12 in 2022 and 13 in 2023!
